

Container Workshop

Container workshop is a complete workshop solution built in a strong shipping container that can be shifted easily from one location to other. All the mechanical & electrical equipment, tools etc are pre-installed which eliminates the requirement of building new set up at a new location. In construction industry where portability of the workshop is a must-have, the container workshop comes as perfect solution for worksite workshop needs. The design can be customized to take care of all the repair & maintenance facilities of construction equipment.

Optionals

- High Cube Container
- New Container
